

APPLICATION

App_id	Name	Code(.ipa/apk format)	Summary	Category	Overall Rating	#Downloads	Logo	Platform	Device
--------	------	-----------------------	---------	----------	----------------	------------	------	----------	--------

STATUS

App_id	Reviewer id	Reviewer Profile	Create Date	Last modified Date	Activity	Release (Version)	Approval Status	Size	Code	Comment/ Issue Tracker
--------	-------------	------------------	-------------	--------------------	----------	-------------------	-----------------	------	------	------------------------

APP USAGE (BY EMPLOYEE)

User ID	App_id	Last Updated	Download date
---------	--------	--------------	---------------

**DOUBT: If the code is slightly updated should we go through entire code validation process again?
(status db to be updated or just the code there)**

APP RATINGS

ID	App_id	Employee ID	Rating	Date
----	--------	-------------	--------	------

SYSTEMS(ANALYST , DEVELOPER , ADMIN)

ID	Name	DOB	Add	Ph.no	E-mail	Username	Pwd	User Profile	Create Date	Last Modified
